OpisFrom debut author Caroline Kepnes comes To You, one of the magazine's best books Suspension of 2014, and a brilliant and terrifying novel for the social media age. When a handsome novice writer steps into the East Village bookstore where Joe Goldberg works, he does what someone would do: he Googles the name on her credit card. There is only one Guinevere Beck in New York. She has a public Facebook account and tweets constantly, telling Joe everything he needs to know: she's just Bec to her friends, she went to Brown University, she lives on Bank Street and she'll be at a bar in Brooklyn tonight - the perfect place to meet. As Joe invisibly and obsessively takes control of Beck's life, he organizes a series of events to ensure Beck finds himself in his waiting arms. Moving from stalker to guy, Joe transforms himself into the perfect man Beck, all the while calmly eliminating the obstacles that stand in their way, even if it means murder. A terrifying exploration of how vulnerable we all are to harassment and manipulation, debut author Caroline Kepnes delivers a razor novel for our hyper-connected digital age. You are a compulsively readable page turner who is being compared to Gone Girl, an American psychopath, and Stephen King in Misery.Szczegły Carolina Kepnes książki Skryt'ła - audiobookISBN: 8594072722417 / Czeski / audio (mł/jod) / 2016ISBN: 8594072722417/Czeski/audio (mł/jod)/2016Termin realizacji zam'wienia: OK. 12-18 dni roboczych. Anna Kleiserovich 5.9 Cartoons written in... Arnaud Delaland 8.3 King Weichik play 4 out of 5 stars Joe, the first of two thriller books and The Uncertainty series written in 2014 by Caroline Kepnes. All I can start with is wow - I loved it I've been trying to pull out all the spoilers, but I'm giving a bit of a high level plot and antics away as I think it will make you want to read it more. Why this book my friend Medhat asked if I would be interested in a buddy reading with him and offered 5 different books. I've read 1 already, there was no interest in 1 of them, 4 out of 5 stars for you, the first of two thriller books and the Suspense series written in 2014 by Caroline Kepnes. All I can start with is wow - I loved it I've been trying to pull out all the spoilers, but I'm giving a bit of a high level plot and antics away as I think it will make you want to read it more. Why this book is My Friend Medhat if I was interested in a buddy read with him and offered 5 different books. I've read 1 already, there was no interest in 1 of them, and 2 were reread for it, which left this as something new for both of us. So we went with him... I didn't know anything about the author or the novel before he was brought up, and I'm grateful that he did. I was in a bit of a decline reading, and this book was very refreshing and strong, right in my sweet spot as far as genres and styles go. Please go check out Medhat's profile and look at his review of this book. Plot, Characters and Installation Joe runs a bookstore on New York's Lower East Side, a kind of inheritance of it from a man who basically took him as a boy from his parents who didn't do a very good job of nurturing him. Joe is witty, sarcastic and on the verge of being a bit psychotic for his 25-30ish years. Guinevere Beck, known simply as Beck, stops at his store to make a purchase, and Joe immediately falls in love... No, that's not the right word... obsession, yes ... Falls into an obsession ... It's the right word... with her. He stalks her social media profiles, learns all he can about her, then the engineers drop her again/off again by a friend's jerk. He tries to isolate Beck from his friends and create situations where they continue to work in another until she finally decides to pursue him. They start dating in a few weeks and have a very peculiar relationship where they take steps to get closer, then she pulls away and is looking for her ex boyfriend. After a few weeks back and forth, some major events occur that show Joe's true colors... and eventually we find out just how broken Beck is as well. When one of them tries to break off the relationship, the other goes crazy and takes the situation to a whole new level of crazy. As the book comes to an end, the dramatic conclusion preties a major phase change and probably begins the focus for the second book in the series, which is like a nice little teaser for you... called Hidden Bodies. The Fu... It's hard to describe without giving any spoilers for Joe and Beck, you have Joe's ex-girlfriend and Beck's ex-boyfriend. Beca's psychiatrist enters the picture for a good piece of the book as well as her friend, Peach. Peach is an annoying and bombastic witch (I have another word in mind, but I'll be fine today), which is almost more psychotic than Joe. Joe has several employees in the bookstore who interact from time to time, as well as police intervention over several chapters. The action mostly takes place in New York, but there are several short trips to Rhode Island and other parts of the immediate vicinity. All this is happening in our time, where social media and technology are very important for the plot and nature of the action. The approach and style of the book is told from Joe's perspective as he is the narrator who what he said from a first-person point of view. However, the big difference in this book is what Joe says says as if reader Beck was constantly referring to her like you throughout the book. As a reader, you begin to feel like everything he does, he does to you. And when your character, Beck, makes decisions or reacts in unexpected ways, it's a roller coaster of fun trying to balance your entertainment and your frustration with anger and your confusion. Everyone's in a good way. I didn't really read much else using this perspective and it was done in a very strong way. The book is about 400 pages long and divided into about 50 chapters, so each is relatively short but consistent in its narrative, style and language. The language is a bit confusing at times, as they are both avid readers and writers, work in a bookstore and get pretty philosophical. This is definitely the 17th book in the sense that there are many 4-letter word bombs and extensive sexual content. Some will find it on the vulgar side, and although he certainly had a few moments when he was on the edge, I thought the author only included such content when he felt appropriate. Strengths Thanks to the style, you are immediately drawn into Joe's psychotic attraction and dangerous personality. However... There is something so wonderful and charming about him, you want to look past the stalker he becomes as he has a heart hold. And when Beck starts to show signs that are poisonous, you almost don't mind some of the things he does to or against her, despite their growing attraction and attitude. It's really like watching a train wreck, knowing that you can't really stop it, but kinda wanting to see every little detail gory as it unfolds. Joe is so crystal clear, you'd think he's standing next to you. Bec is almost as real as he is, but given Joe tells the story, you tend to feel closer to him. For an author to make you almost root for the bad guy, this is a good book. Interaction, imagination, internal thoughts, passive-aggressive behavior... it's all so spot on, I can't even begin to explain how real this situation seems to be playing, except that he's a stalker and basically invaded her life. If they had just met and got into a relationship, everyone from that moment felt 100% real - from their fights to their makeup sessions, as well as from the games they played and the way their friends took sides. An amazing piece of life to watch play. Fears of the last few chapters felt a little rushed. It was quite tense and you could see the whole sequence of events unfolding in real time before your eyes; however, because it's all from Joe's point of view, I'm not sure exactly how much Beck knows in these last few chapters. She clearly states that she knew about what he had done before she told him she knew about it. But you don't how much preview she had in his psychotic mind, or if she was happy or scared with him. Again, sorry, don't want to give away any spoilers For me, I would read the entry in the magazine she wrote exactly what she knew, and when she knew it. Otherwise, we are left guessing a bit, and that information can help us decide whether she is a good person or a bad person, Joe's coming off no. He's sneaky, he's smart, he's vindictive. He's manipulating. But no one seems to be picking up on him until it's too late. I can pretty much pay off it; however, in the scenes where he is caught, I can't tell if it's remorse or anger. I would love to know if he wants to be caught, if he accepts the consequences, or if he is just growing more unstable. It's a pretty clear ending to the book, so you know when he's done what's going on in his head, but it would be fantastic to watch him spiral a little more out of control in the last 20% of the novel. The author and other similar books As far as the story tell, I can't think of anything. As for the type of story, perhaps a fatal attraction? Joe also feels like a diabolical version of the narcissistic Holden Caulfield from Catcher in Rye. Amorous and annoying, but be careful how you never know what it is really capable of until it has already happened. The questions and final thoughts I need to read the second book as soon as possible. It's such a different story... one where you can side with the criminal in this story. You see both points of view. You want him to get everything he deserves - both good and bad. And in some strange way, I think I'm even attracted to parts of his personality (and that's scary considering how the book ends). If you need something to pull you out of the recession, this is the book. It still sits on my brain as bright as if I was reading the words on the page. It's such a book... one where you want to keep thinking about it and talking about it for a long time after you're done. About me for someone who is new to me or my reviews ... Here's the scoop: I read a lot. I write a lot. And now I blog a lot. First the book review goes to Goodreads, and then I send it over to my WordPress blog on , where you'll also find TV and movie reviews, revealing and introspective 365 Daily Challenge and lots of blogs about places I've visited around the world.
